For the quarterly period ended March 31, 2021

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

EG ACQUISITION CORP.

(Exact Name of Registrant as Specified in Charter)

Delaware
(State or Other Jurisdiction of
Incorporation)

001-4044
(Commission
File Number)

86-1740840
(IRS Employer
Identification No.)

375 Park Avenue, 24th Floor
New York, NY 10152
(Address of Principal Executive Offices) (Zip Code)

212-888-1040
(Registrant's Telephone Number, Including Area Code)

Not Applicable
(Former Name or Former Address, if Changed Since Last Report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Units	EGGFU	The New York Stock Exchange
Class A common stock	EGGF	The New York Stock Exchange
Warrants	EGGFW	The New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, anon-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 9, 2021, there were 22,500,000 shares of Class A common stock, par value \$0.0001 per share, and 6,468,750 shares of Class B common stock, par value \$0.0001 per share, issued and outstanding.

EG ACQUISITION CORP.

NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Note 1 — Organization and Business Operations

Organization and General

EG Acquisition Corp. (the “Company”) is a blank check company incorporated in Delaware on January 28, 2021. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of March 31, 2021, the Company had not commenced any operations. All activity for the period from January 28, 2021 (inception) through March 31, 2021 relates to the Company’s formation and the initial public offering (“IPO”), which is described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the IPO and will recognize changes in the fair value of warrant liability as other income (expense). The Company has selected December 31 as its fiscal year end.

The Company’s sponsor is EG Sponsor LLC, a Delaware limited liability company (the “Sponsor”).

Financing

The registration statement for the Company’s IPO was declared effective on May 25, 2021 (the “Effective Date”). On May 28, 2021, the Company consummated the IPO of 22,500,000 units (the “Units” and, with respect to the shares of common stock included in the Units being offered, the “Public Shares”, and warrants included in the Units being offered, the “Public Warrants”), at \$10.00 per Unit, generating gross proceeds of \$225,000,000, which is discussed in Note 3.

Simultaneously with the closing of the IPO, the Company consummated the sale of 4,333,333 Private Placement Warrants (the “Private Placement Warrants”) at a price of \$1.50 per Private Placement Warrant in a private placement to the Sponsor, generating total gross proceeds of \$6,500,000.

Transaction costs amounted to \$12,953,890 consisting of \$4,500,000 of underwriting discount, \$7,875,000 of deferred underwriting discount, and \$578,890 of other offering costs. In addition, \$1,961,900 of cash was held outside of the Trust Account (as defined below) and is available for working capital purposes.

Trust Account

Following the closing of the IPO on May 28, 2021, \$225,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the IPO and the sale of the Private Placement Warrants was placed in a trust account (“Trust Account”) and will be invested only in U.S. government securities with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. The Trust Account is intended as a holding place for funds pending the earliest to occur of: (a) the completion of the initial Business Combination, (b) the redemption of any public shares properly submitted in connection with a stockholder vote to amend the amended and restated certificate of incorporation (i) to modify the substance or timing of the obligation to redeem 100% of the public shares if the Company does not complete the initial Business Combination within 24 months from the closing of the IPO or (ii) with respect to any other provision relating to stockholders’ rights or pre-initial Business Combination activity, and (c) the redemption of the public shares if the Company does not complete the initial Business Combination within 24 months from the closing of the IPO, subject to applicable law. The proceeds deposited in the Trust Account could become subject to the claims of the creditors, if any, which could have priority over the claims of the public stockholders.

Initial Business Combination

In accordance with the rules of the NYSE, the initial Business Combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the amount of deferred underwriting discounts held in trust and taxes payable on the income earned on the Trust Account) at the time of signing a definitive agreement in connection with the initial Business Combination. The Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the "Investment Company Act"). There is no assurance that the Company will be able to successfully effect a Business Combination.

The Company will provide its public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of the initial Business Combination either (i) in connection with a stockholder meeting called to approve the initial Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a proposed initial Business Combination or conduct a tender offer will be made by the Company, solely in the Company's discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require the Company to seek stockholder approval under the law or stock exchange listing requirements. The public stockholders will be entitled to redeem their shares at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account calculated as of two business days prior to the consummation of the initial Business Combination, including interest earned on the funds held in the Trust Account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations. The amount in the Trust Account is initially anticipated to be \$10.00 per public share.

The shares of common stock subject to redemption will be recorded at a redemption value and classified as temporary equity upon the completion of the IPO, in accordance with Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the issued and outstanding shares voted are voted in favor of the Business Combination.

The Company's amended and restated certificate of incorporation provides that the Company will have only 24 months from the closing of the IPO (the "Combination Period") to complete the initial Business Combination. If the Company are unable to complete the initial Business Combination within such 24-month period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than 10 business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining stockholders and the board of directors, liquidate and dissolve, subject in each case, to the obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

Table of Contents

The Sponsor, officers and directors have entered into a letter agreement with the Company, pursuant to which they have agreed to (i) waive their redemption rights with respect to their founder shares (as described in Note 5) and public shares in connection with the completion of the initial Business Combination, (ii) waive their redemption rights with respect to their founder shares and public shares in connection with a stockholder vote to approve an amendment to the Company's amended and restated certificate of incorporation (A) to modify the substance or timing of the Company's obligation to redeem 100% of the Company's public shares if the Company does not complete the initial Business Combination within 24 months from the closing of the IPO or (B) with respect to any other provision relating to stockholders' rights or pre-initial Business Combination activity and (iii) waive their rights to liquidating distributions from the Trust Account with respect to their founder shares if the Company fails to complete the initial Business Combination within 24 months from the closing of the IPO, although they will be entitled to liquidating distributions from the Trust Account with respect to any public shares they hold if the Company fails to complete the initial Business Combination within the prescribed time frame. If the Company submits the initial Business Combination to the public stockholders for a vote, the initial stockholders have agreed to vote their founder shares and any public shares purchased during or after the IPO in favor of the initial Business Combination.

The Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or other similar agreement or Business Combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per public share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriters of the IPO against certain liabilities, including liabilities under the Securities Act. However, the Company has not asked the Sponsor to reserve for such indemnification obligations, nor has the Company independently verified whether the Sponsor has sufficient funds to satisfy its indemnity obligations and the Company believes that the Sponsor's only assets are securities of the Company. Therefore, the Company cannot assure that the Sponsor would be able to satisfy those obligations.

Risks and Uncertainties

Management is currently evaluating the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations, and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The unaudited condensed financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Liquidity and Capital Resources

As of March 31, 2021, the Company had no cash. Until the consummation of the IPO, the Company's only source of liquidity was an initial purchase of common stock by the Sponsor and loans from the Sponsor.

Subsequent to the quarterly period covered by this quarterly report on Form 10-Q (the "Quarterly Report"), the Company consummated its IPO (see Note 3) and Private Placement (See Note 4). Of the net proceeds from the IPO and associated Private Placements, \$225,000,000 of cash was placed in the Trust Account and \$1,961,900 of cash was held outside of the Trust Account and is available for the Company's working capital purposes.

Table of Contents

The Company's Sponsor or an affiliate of the Sponsor or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required (the "Working Capital Loans"). If the Company completes an initial Business Combination, the Company would repay such loaned amounts out of the proceeds of the Trust Account released to the Company. Otherwise, such loans would be repaid only out of funds held outside the Trust Account. In the event that the initial Business Combination does not close, the Company may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from the Trust Account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the Private Placement Warrants, including as to exercise price, exercisability and exercise period. At March 31, 2021, no such Working Capital Loans were outstanding.

Based on the foregoing, management believes that the Company will have sufficient working capital to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective Initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Note 2 — Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed financial statements are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the SEC. Accordingly, they do not include all of the information and footnotes required by GAAP. In the opinion of management, the unaudited condensed financial statements reflect all adjustments, which include only normal recurring adjustments necessary for the fair statement of the balances and results for the periods presented. Operating results for the period from January 28, 2021 (inception) through March 31, 2021 are not necessarily indicative of the results that may be expected through December 31, 2021.

The accompanying unaudited condensed financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Form 8-K and the final prospectus filed by the Company with the SEC on June 4, 2021 and May 27, 2021, respectively.

Emerging Growth Company Status

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended, (the “Securities Act”), as modified by the Jumpstart the Company’s Business Startups Act of 2012, (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of these unaudited condensed financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed financial statement. Actual results could differ from those estimates.

Deferred Offering Costs

Deferred offering costs consist of legal, accounting and other expenses incurred through the balance sheet date that were directly related to the IPO. Upon the completion of the IPO on May 28, 2021, Offering costs were allocated to the separable financial instruments issued in the IPO based on a relative fair value basis compared to total proceeds received. Offering costs associated with warrant liability were expensed, and offering costs associated with the Class A common stock were charged to the stockholders’ equity.

Derivative Financial Instruments

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, “Derivatives and Hedging”. Derivative instruments are initially recorded at fair value on the grant date and re-valued at each reporting date, with changes in the fair value reported in the statements of operations. Derivative assets and liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date. The Company has determined that both the Public Warrants and Private Placement Warrants are derivative instruments (See Note 3 and Note 4).

Net Loss Per Common Stock

The Company complies with the accounting and disclosure requirements of FASB ASC Topic 260, “Earnings Per Share.” Net loss per common stock is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period, excluding common stock subject to forfeiture. Weighted average shares were reduced for the effect of an aggregate of 843,750 shares of common stock that are subject to forfeiture if the over-allotment option is not exercised by the underwriters (see Note 7). At March 31, 2021, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into common stock and then share in the earnings of the Company. As a result, diluted loss per common stock is the same as basic loss per common stock for the period presented.

Table of Contents

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities approximates the carrying amounts represented in the accompanying balance sheets, primarily due to their short-term nature.

Income Taxes

The Company accounts for income taxes under FASB ASC 740, "Income Taxes" ("ASC 740"). ASC 740 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statement and tax basis of assets and liabilities and for the expected future tax benefit to be derived from tax loss and tax credit carry forwards. ASC 740 additionally requires a valuation allowance to be established when it is more likely than not that all or a portion of deferred tax assets will not be realized.

ASC 740 also clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim period, disclosure and transition.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of March 31, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

The Company has identified the United States as its only "major" tax jurisdiction.

The Company is subject to income tax examinations by major taxing authorities since inception. These examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with federal and state tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

The provision for income taxes was deemed to be immaterial for the period from January 28, 2021 (inception) through March 31, 2021.

Recent Accounting Pronouncements

Management does not believe that any recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company's unaudited condensed financial statements.

Note 3 — Initial Public Offering

Public Units

Pursuant to the IPO on May 28, 2021, the Company sold 22,500,000 Units at a purchase price of \$10.00 per Unit. Each Unit consists of one share of Class A common stock, and one-third of one redeemable warrant. Each whole public warrant entitles the holder to purchase one share of Class A common stock at an exercise price of \$11.50 per whole share, subject to adjustment (see below).

Table of Contents

Following the closing of the IPO on May 28, 2021, \$225,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the IPO and the sale of the Private Placement Warrants was placed in a trust account (“Trust Account”) and will be invested only in U.S. government securities with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations.

Public Warrants

Each whole warrant entitles the holder to purchase one share of the Company’s Class A common stock at a price of \$11.50 per share, subject to adjustment, at any time commencing on the later of 12 months from the closing of the IPO and 30 days after the completion of the initial Business Combination. The warrants will expire five years after the completion of the initial Business Combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

The Company is not registering the shares of Class A common stock issuable upon exercise of the warrants at this time. However, the Company has agreed that as soon as practicable, but in no event later than 15 business days after the closing of the initial Business Combination, the Company will use its best efforts to file with the SEC a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants, to cause such registration statement to become effective and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed, as specified in the warrant agreement. If a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants is not effective by the 60th business day after the closing of the Company’s initial Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when The Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. If that exemption, or another exemption, is not available, holders will not be able to exercise their warrants on a cashless basis.

Redemption of Warrants

Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described herein with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days’ prior written notice of redemption(the “30-day redemption period”) to each warrant holder; and
- if, and only if, the reported last sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending three business days before the Company sends the notice of redemption to the warrant holders.

If the Company calls the warrants for redemption, the management will have the option to require any holder that wishes to exercise his, her or its warrant to do so on a “cashless basis.” In determining whether to require all holders to exercise their warrants on a “cashless basis,” the management will consider, among other factors, the Company’s cash position, the number of warrants that are outstanding and the dilutive effect on the stockholders of issuing the maximum number of shares of Class A common stock issuable upon the exercise of the warrants. If the management takes advantage of this option, all holders of warrants would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of Class A common stock underlying the warrants, multiplied by the excess of the “fair market value” (defined below) of the Class A common stock over the exercise price of the warrants by (y) the fair market value. The “fair market value” will mean the average closing price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants.

Table of Contents

In addition, if (x) the Company issues additional common stock or equity-linked securities for capital raising purposes in connection with the closing of the Company's initial Business Combination at an issue price or effective issue price of less than \$9.20 per share (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the Company's Sponsor or its affiliates, without taking into account any founder shares held by the Company's Sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the Company's initial Business Combination on the date of the consummation of the Company's initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company's common stock during the 20 trading day period starting on the trading day prior to the day on which the Company consummates the Company's initial Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described below under "Redemption of warrants" will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

Note 4 — Private Placement

Simultaneously with the closing of the IPO, the Sponsor purchased an aggregate of 4,333,333 Private Placement Warrants at a price of \$1.50 per Private Placement Warrant, for an aggregate purchase price of \$6,500,000, in a private placement (the "Private Placement"). Each Private Placement Warrant entitles the holder to purchase one share of the Class A common stock at a price of \$11.50 per share.

The Private Placement Warrants (including the Class A common stock issuable upon exercise of the Private Placement Warrants) will not be transferable, assignable or salable until three years after the completion of the initial Business Combination and they will not be redeemable by the Company so long as they are held by the Sponsor or its permitted transferees. The Sponsor, or its permitted transferees, has the option to exercise the Private Placement Warrants on a cashless basis. Except as described below, the Private Placement Warrants have terms and provisions that are identical to those of the warrants being sold as part of the Units in the IPO, including as to exercise price, exercisability and exercise period. If the Private Placement Warrants are held by holders other than the Sponsor or its permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by the holders on the same basis as the warrants included in the Units being sold in the IPO.

If holders of the Private Placement Warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the excess of the "fair market value" (defined below) over the exercise price of the warrants by (y) the fair market value. The "fair market value" shall mean the average reported last sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of warrant exercise is sent to the warrant agent.

The Sponsor, officers and directors have entered into a letter agreement with the Company, pursuant to which they have agreed to (i) waive their redemption rights with respect to their founder shares (as described in Note 5) and public shares in connection with the completion of the initial Business Combination, (ii) waive their redemption rights with respect to their founder shares and public shares in connection with a stockholder vote to approve an amendment to the Company's amended and restated certificate of incorporation (A) to modify the substance or timing of the Company's obligation to redeem 100% of the Company's public shares if the Company does not complete the initial Business Combination within 24 months from the closing of the IPO or (B) with respect to any other provision relating to stockholders' rights or pre-initial Business Combination activity and (iii) waive their rights to liquidating distributions from the Trust Account with respect to their founder shares if the Company fails to complete the initial Business Combination within 24 months from the closing of the IPO, although they will be entitled to liquidating distributions from the Trust Account with respect to any public shares they hold if the Company fails to complete the initial Business Combination within the prescribed time frame. If the Company submits the initial Business Combination to the public stockholders for a vote, the initial stockholders have agreed to vote their founder shares and any public shares purchased during or after the IPO in favor of the initial Business Combination.

Note 5 — Related Party Transactions

Founder Shares

On January 29, 2021, the Sponsor paid \$25,000 to cover certain of the Company's offering costs in exchange for 5,750,000 founder shares. In March 2021, the Company effected a stock dividend of 1,437,500 shares with respect to its Class B common stock, resulting in its initial stockholders holding an aggregate of 7,187,500 founder shares. On May 25, 2021, the Sponsor surrendered an aggregate of 718,750 shares of Class B common stock for no consideration, which were cancelled, resulting in an aggregate of 6,468,750 shares of Class B common stock outstanding and held by the Sponsor. Up to 843,750 of the founder shares will be forfeited depending on the extent to which the underwriters' over-allotment is exercised.

The Company's initial stockholders will agree not to transfer, assign or sell any of their founder shares until the earlier to occur of (A) three years after the completion of the Company's initial Business Combination (or with respect to any founder shares transferred or distributed by the Sponsor to one of the Company's independent directors, one year) and (B) subsequent to the Company's initial Business Combination, the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property. The transfer restrictions described above are not subject to any except based on the price at which the Company's common stock trades after the completion of the Company's initial Business Combination. Any permitted transferees will be subject to the same restrictions and other agreements of the Company's initial stockholders with respect to any founder shares.

Promissory Note — Related Party

The Company's Sponsor has agreed to loan the Company an aggregate of up to \$300,000 to be used for a portion of the expenses of the IPO. The loan is non-interest bearing, unsecured and due at the earlier of July 31, 2021 or the closing of the IPO. As of March 31, 2021, the Company had an outstanding balance of \$35,000 under the promissory note.

Related Party Loans

In order to finance transaction costs in connection with an intended initial Business Combination, the Sponsor or an affiliate of the Sponsor or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required (the "Working Capital Loans"). Such loan is non-interest bearing. If the Company completes an initial Business Combination, the Company would repay such loaned amounts out of the proceeds of the Trust Account released to the Company. Otherwise, such loans would be repaid only out of funds held outside the Trust Account. In the event that the initial Business Combination does not close, the Company may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from the Trust Account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the Private Placement Warrants, including as to exercise price, exercisability and exercise period. At March 31, 2021, no such Working Capital Loans were outstanding.

Administrative Support Agreement

The Company has agreed, commencing on May 25, 2021, to pay the Sponsor a total of \$10,000 per month for office space, secretarial and administrative services provided to members of the Company's management team. Upon completion of the initial Business Combination or the Company's liquidation, the Company will cease paying these monthly fees.

Note 6 — Commitments and Contingencies

Registration and Stockholder Rights

The holders of the founder shares, Private Placement Warrants and warrants that may be issued upon conversion of working capital loans will have registration rights to require the Company to register a sale of any of the Company's securities held by them pursuant to a registration and stockholder rights agreement signed on May 25, 2021. These holders will be entitled to make up to three demands, excluding short form registration demands, that the Company registers such securities for sale under the Securities Act. In addition, these holders will have "piggy-back" registration rights to include their securities in other registration statements filed by the Company.

Underwriters Agreement

The Company granted the underwriters a 45-day option to purchase up to 3,375,000 additional Units to cover any over-allotments, if any, at the IPO price less the underwriting discounts and commissions.

On May 28, 2021, the Company paid a fixed underwriting discount in aggregate of \$4,500,000. Additionally, the underwriter will be entitled to a deferred underwriting discount of 3.5% of the gross proceeds of the IPO held in the Trust Account, or \$7,875,000, upon the completion of the Company's initial Business Combination subject to the terms of the underwriting agreement.

Forward Purchase Agreement

On May 25, 2021, the Company entered into a forward purchase agreement pursuant to which, if the Company conducts a private placement transaction in connection with the initial Business Combination, the Company will offer the forward purchaser the option to purchase the forward purchase securities at a price of \$10.00 per share in connection with the initial Business Combination in an amount up to (a) the percentage of Units purchased by the forward purchaser in the IPO multiplied by (b) the total number of forward purchase securities sold in such private placement transaction; provided that, the forward purchaser's right to purchase such forward purchase securities shall be contingent upon the forward purchaser purchasing at least 4.95% of the Units in the IPO. The forward purchase agreement is subject to conditions, including the forward purchaser specifying the amount of forward purchase securities it wishes to purchase up to the maximum amount specified above (or such higher amount as may be agreed by the Company) after the Company notifies the forward purchaser of the Company's offer to it to purchase forward purchase securities. The forward purchase securities will be identical to the Class A common stock being sold in the IPO, except the forward purchase securities may be subject to certain registration rights and transfer or lock-up restrictions. The forward purchase transaction is at the discretion of the Company and is subject to conditions, including the forward purchaser confirming its commitment to purchase forward purchase securities and the amount thereof no later than fifteen days after the Company notifies the forward purchaser of a proposed initial Business Combination and of the Company's intention to raise capital through the issuance of equity securities in connection with the closing of such Business Combination. The forward purchaser may grant or withhold its confirmation entirely within its sole discretion, and if the forward purchaser does not confirm its commitment at such time, it will not be obligated and will not have the right to purchase any of the forward purchase securities. The proceeds from the sale of these forward purchase securities, together with the amounts available to the Company from the Trust Account (after giving effect to any redemptions of public common stock) and any other equity or debt financing obtained by the Company in connection with the Business Combination, may be used to satisfy the cash requirements of the Business Combination, including funding the purchase price and paying expenses and retaining specified amounts to be used by the post-Business Combination company for working capital or other purposes. The Company performed an assessment in accordance with Accounting Standards Codification ("ASC") 480—Distinguishing Liabilities from Equities and ASC 815—Derivatives and Hedging to conclude whether the forward-purchase securities constitute a liability and a derivative such that it will be fair valued separately from the Company's common stock. The Company concludes that the forward-purchase securities should be equity-classified and its embedded features should not be bifurcated.

Table of Contents

Note 7 — Stockholder's Equity

Preferred Stock — The Company is authorized to issue 1,000,000 shares of preferred stock at a par value of \$0.0001 per share. At March 31, 2021, there were no shares of preferred stock issued or outstanding.

Class A Common Stock — The Company is authorized to issue 100,000,000 shares of Class A common stock at a par value of \$0.0001 per share. Holders of Class A common stock are entitled to one vote for each share. As of March 31, 2021, there were no Class A common stock issued or outstanding.

Class B Common Stock — The Company is authorized to issue 10,000,000 shares of Class B common stock at a par value of \$0.0001 per share. Holders of the Company's Class B common stock are entitled to one vote for each common stock. On January 29, 2021, the Sponsor paid \$25,000 to cover certain of the Company's offering costs in exchange for 5,750,000 founder shares. In March 2021, the Company effected a stock dividend of 1,437,500 shares with respect to its Class B common stock, resulting in its initial stockholders holding an aggregate of 7,187,500 founder shares. On May 25, 2021, the Sponsor surrendered an aggregate of 718,750 shares of Class B common stock for no consideration, which were cancelled, resulting in an aggregate of 6,468,750 shares of Class B common stock outstanding and held by the Sponsor. Up to 843,750 of the founder shares will be forfeited depending on the extent to which the underwriters' over-allotment is exercised.

The Company's initial stockholders will agree not to transfer, assign or sell any of their founder shares until the earlier to occur of: (A) three years after the completion of the Company's initial Business Combination (or with respect to any founder shares transferred or distributed by the Sponsor to one of the Company's independent directors, one year) and (B) subsequent to the Company's initial Business Combination, the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property (except to certain permitted transferees and under certain circumstances). The transfer restrictions described above are not subject to any exception based on the price at which the Company's common stock trades after the completion of the Company's initial Business Combination. Any permitted transferees will be subject to the same restrictions and other agreements of our initial stockholders with respect to any founder shares.

The shares of Class B common stock will automatically convert into shares of the Company's Class A common stock at the time of the Company's initial Business Combination on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered and related to the closing of the initial Business Combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of the IPO plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial Business Combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial Business Combination, any private placement-equivalent warrants issued to the Sponsor or its affiliates upon conversion of loans made to the Company).

Table of Contents

Holders of founder shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time. The term “equity-linked securities” refers to any debt or equity securities that are convertible, exercisable or exchangeable for shares of Class A common stock issued in a financing transaction in connection with the Company’s initial Business Combination, including but not limited to a private placement of equity or debt. Securities could be “deemed issued” for purposes of the conversion rate adjustment if such shares are issuable upon the conversion or exercise of convertible securities, warrants or similar securities.

Note 8 — Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the unaudited condensed financial statements were issued. The Company did not identify any subsequent events that would have required adjustment or disclosure in the unaudited condensed financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

References to “we”, “us”, “our” or the “Company” are to EG Acquisition Corp., except where the context requires otherwise. The following discussion should be read in conjunction with our unaudited condensed financial statements and related notes thereto included elsewhere in this report.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other Securities and Exchange Commission (“SEC”) filings.

Overview

We are a blank check company incorporated as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. We have not selected any specific business combination target and, as of March 31, 2021, we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. We intend to effectuate our initial business combination using cash from the proceeds of the initial public offering and the private placement of the private placement warrants, the proceeds of the sale of our shares in connection with our initial business combination (pursuant to a forward purchase agreement), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, or a combination of the foregoing.

As indicated in the accompanying unaudited condensed financial statements, as of March 31, 2021, we had no cash and deferred offering costs of \$212,928.

On May 28, 2021, we consummated the initial public offering of 22,500,000 units, at a price of \$10.00 per unit, generating gross proceeds of \$225,000,000. Simultaneously with the closing of the initial public offering, we consummated the sale of 4,333,333 private placement warrants, at a price of \$1.50 per private placement warrant, in a private placement to the Sponsor, generating gross proceeds of \$6,500,000.

Of the net proceeds from the IPO and associated private placements, \$225,000,000 of cash was placed in the trust account and \$1,961,900 of cash was held outside of the trust account and is available for our working capital purposes.

We cannot assure you that our plans to complete our Initial Business Combination will be successful.

Results of Operations

We have neither engaged in any operations nor generated any revenues to date. The only activities through March 31, 2021 were organizational activities and those necessary to prepare for the initial public offering. We do not expect to generate any operating revenues until after the completion of our initial business combination. We will generate non-operating income in the form of interest income on marketable securities held in the trust account. We will incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the period from January 28, 2021 (inception) through March 31, 2021, we had a net loss of \$776.

[Table of Contents](#)

Liquidity and Capital Resources

As of March 31, 2021, we had no cash. Until the consummation of the initial public offering, our only source of liquidity was an initial purchase of common stock by the Sponsor and loans from the Sponsor.

Subsequent to the quarterly period covered by this Quarterly Report, we consummated the initial public offering and private placement. Of the net proceeds from the initial public offering and associated private placements, \$225,000,000 of cash was placed in the trust account and \$1,961,900 of cash was held outside of the trust account and is available for our working capital purposes.

Our Sponsor or an affiliate of the Sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete an initial business combination, we would repay such loaned amounts out of the proceeds of the trust account released to us. Otherwise, such loans would be repaid only out of funds held outside the trust account. In the event that the initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from the trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. At March 31, 2021, no such loans were outstanding.

Based on the foregoing, management believes that we will have sufficient working capital to meet our needs through the earlier of the consummation of a business combination or one year from this filing. Over this time period, we will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial business combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the business combination.

Critical Accounting Policies

The preparation of these unaudited condensed financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed financial statement. Actual results could differ from those estimates.

Deferred offering costs consist of legal, accounting and other expenses incurred through the balance sheet date that were directly related to the IPO. Upon the completion of the IPO on May 28, 2021, Offering costs were allocated to the separable financial instruments issued in the IPO based on a relative fair value basis compared to total proceeds received. Offering costs associated with warrant liability were expensed, and offering costs associated with the Class A common stock were charged to the stockholders' equity.

Recent Accounting Standards

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our condensed financial statements.

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations

As of March 31, 2021, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations.

[Table of Contents](#)

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not required for smaller reporting companies.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended March 31, 2021, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our principal executive officer and principal financial and accounting officer have concluded that during the period covered by this report, our disclosure controls and procedures were effective at a reasonable assurance level and, accordingly, provided reasonable assurance that the information required to be disclosed by us in reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Changes in Internal Control over Financial Reporting

During the most recently completed fiscal quarter ended March 31, 2021, there was no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such.

Item 1A. Risk Factors.

Factors that could cause our actual results to differ materially from those in this Quarterly Report are any of the risks described in our final prospectus supplement for our Initial Public Offering filed with the SEC on May 27, 2021. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. As of the date of this Quarterly Report, there have been no material changes to the risk factors disclosed in the final prospectus supplement for our Initial Public Offering filed with the SEC on May 27, 2021.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The registration statement for the initial public offering (the “Initial Public Offering”) was declared effective on May 25, 2021. On May 28, 2021, we consummated an Initial Public Offering of 22,500,000 units (the “Units”), at an offering price of \$10.00 per Unit, generating gross proceeds of approximately \$225 million, and incurring offering costs of approximately \$13 million, inclusive of \$7.875 million in deferred underwriting commissions.

Simultaneously with the closing of the Initial Public Offering, we consummated a private placement with the Sponsor of 4,333,333 warrants (the “Private Placement Warrants”), each at a price of \$1.50 per Private Placement Warrant, generating total gross proceeds of \$6,500,000.

Upon the closing of the Initial Public Offering and the private placement of the Private Warrants (the “Private Placement”), \$225 million (\$10.00 per Unit) of the net proceeds of the sale of the Units in the Initial Public Offering and the Private Placement were placed in a trust account (“Trust Account”) located in the United States with Continental Stock Transfer & Trust Company acting as trustee, and held as cash or invested only in U.S. “government securities,” within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less, or in money market funds meeting certain conditions under the Investment Company Act, which invest only in direct U.S. government treasury obligations, as determined by us, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described above.

We paid a total of \$4.5 million in underwriting discounts and commissions (not including the \$7.875 million deferred underwriting commission payable at the consummation of the initial Business Combination) and approximately \$0.6 million for other costs and expenses related to our formation and the Initial Public Offering.

For a description of the use of the proceeds generated in our Initial Public Offering, see Part I, Item 2 of this Form10-Q.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

CERTIFICATION
PURSUANT TO RULES 13a-14(a) AND 15d-14(a)
UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Gregg S. Hymowitz, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended March 31, 2021 of EG Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. [Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313];
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

CERTIFICATION
PURSUANT TO RULES 13a-14(a) AND 15d-14(a)
UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Sophia Park Mullen, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended March 31, 2021 of EG Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. [Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313];
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
